October 2009

Gold Wing Road Riders Association:  
Big Sky, Region I & WA District

*"Friends for Fun, Safety and  
Knowledge"*

### Message from our Chapter Directors

October – ahh..the fall months. Well another motorcycle summer season is winding down as we move more into cooler months, slowly leaving summer behind. The leaves are turning beautiful shades, the days are getting shorter and daylight is less and less each day. Well, there are still days to ride your motorcycle and you should take advantage of every one of these days. We also need to pay careful attention as this is one of the most dangerous of all seasons. Now with the days getting shorter, riders need to pay particular attention, especially in traffic as those people in the cars are not looking for you and cannot see you. I know you say, we have big motorcycles with lots of lights and wear bright protective clothing, but for some reason, they still don't see you. Please remember to think defensively when riding into these fall months, so we can keep everyone safe and sound.

Also in October we have a couple of really special events, the 2009 Washington District Leadership Conference in Buckley on October 10<sup>th</sup>. This year the trainers in our district have gone all out and have changed the format and classes. There will be many new and exciting classes and information to provide to you, the chapter member. There will be classes on Facebook, Photography, and Geo-caching, just to name a few. Also in addition, the chapter will pay the fee for those members who attend this wonderful day of education and fun. This is not just for leaders but is open to every member, so please if you can attend, I would recommend it. There is information on our website and also on the district website with the flyer and class syllabus, so please check it out!! In addition, Halloween is right around the corner. I wonder what our crazy chapter members are planning for the Halloween party. Hmm..there have been some really cool and interesting costumes over the last few years and I am sure this year will be better. If you have not been to the Halloween party, I would suggest you start looking for a costume now and prepare to have a great time with your fellow Chapter E members. This year's party is on the 30<sup>th</sup>, so it will give you an opportunity to come and show off your creativity, your costume and have some fun right before the official date of the 31<sup>st</sup>. Remember, don't leave your camera around, or you might see something on it that might scare you..<wink><wink>...

Remember, if you see something that you think the Chapter would like to do and/or see, please feel free to let us know. We would be happy to take any and all ideas and suggestions to 'our' chapter membership to see if this is something we can all do as a group. This is YOUR Chapter, so please send all of your suggestions along and we will see what we can do to incorporate those into our Chapter gathering and events.

Till next month—let's ride!!

## Rider Education

### Why We Need The Staggered Formation

*By Ron Peck, Chapter E Educator*

An unfortunate thing happened last week in Northern Oregon: a group of 30 riders were traveling on I-5 between Portland and Salem when they encountered stop and go traffic. At some point during the ride traffic came to a complete stop and there was a mass collision among the bikes. Twenty bikes were involved and 10 went down. It was a nice day with dry pavement, so the only apparent reason was that they were following too closely to the cars in front and to each other, and they weren't paying close enough attention to their environment.

As you all know, the recommended spacing of motorcycles in a group is to be 2 seconds behind the bike immediately in front of you and 1 second behind the bike diagonally in front of you. This is done to give you sufficient time to react if something happens.

This also implies that you stay in your track and don't move from side to side in the lane. The obvious exception to this is when you have to move to avoid a problem (pothole, gravel, bodies, etc.) Hopefully, these problems will be pointed out by the lead bike.

A single-file formation is preferred on a curvy road, under conditions of poor visibility or poor road surfaces, entering/leaving highways, or other situations where an increased space cushion or maneuvering room is needed.

Avoid side-by-side formations, as they reduce the space cushion. If you suddenly needed to swerve to avoid a hazard, you would not have room to do so. You don't want handlebars to get entangled.

Periodically check the riders following in your rear view mirror. If you see a rider falling behind, slow down so they may catch up. If all the riders in the group use this technique, the group should be able to maintain a fairly steady speed without pressure to ride too fast to catch up. Large gaps between riders may tempt cars to slip inside the group on multi-lane highways, especially when they are passing on the right.

A nice tight formation might look great, but can cause problems if the unexpected happens, so be aware...

# Whistler 2009

*By Barb Smith*

On Friday September 11, 2009 a group of Chapter E folks headed north to Whistler, BC in search of fun, adventure and fabulous riding. As usual we were not disappointed. Bob & Patty Spencer, Dave & Leah Steik, Bob & Carolyn Reagle, John & Barb Smith and Jim Pelican met at Canyon Park Starbucks for an early departure. We took the beautiful northern route through Hope and Pemberton, BC. Dave & Sheila Chavez and Ron & Lana Peck decided to leave a wee bit later and take the Sea to Sky Highway directly to Whistler. Scott & Karla Edwards left Thursday providing enough time to ride an expanded version of the northern route. We all arrived by late afternoon and began our third annual Whistler weekend of FUN!

Friday evening was all about food and drink while Saturday brought adventure. Some enjoying the local riding and for others while on horseback. Eight hearty souls traded in our iron horses for some good ole four legged horses. The journey consisted of about 1 ½ hours of riding with some water fun thrown in the midst. The horses had a mid ride stop at the river and they all started splashing themselves and **their riders. Leah's horse decided to lay down in the river with Leah still astride.** Good thing she is as agile and was able to jump off before the horse pinned her under him. The whole river scene was pretty comical! It was quite fun but after 1-2 hours on that hard saddle I was very happy to be sitting on my comfy motorcycle "saddle".

On Sunday morning we bid farewell to Scott and Karla as they were headed for home. Bob Spencer, Dave Chavez & John Smith took to the hills on quads and rode all the way to the edge of the glacier on Blackcomb. They had a great time even though John crashed, ripped his pant leg. No medical attention was required, a few beers that evening did the trick! That was good thing, as **we did not want a repeat of last year... ouch! While the quad**

riders were on their adventure, Barb, Dave Steik & Ron took to the skies, well sort of, we went zip lining. As high **and as fast as we were traveling it sure felt like flying. That's 3 years in a row I've been zip lining, I am now** campaigning for volunteers to go Bungee Jumping with me next time!

Sunday afternoon brought adventures as well. Bob Reagle had a mountain bike lesson, those mountain bike riders up **there don't mess around. Kudos to Bob for venturing into** the world of that sport.) We all rode the Whistler Village Gondola to the Roundhouse Lodge for lunch and then took the new Peak to Peak Gondola which spans the distance between Whistler and Blackcomb Mountains. What amazing scenery, it is simply beautiful in that area. As we all headed for home on Monday morning, I believe there was total agreement that this had been another successful **Chapter E journey. I can't wait for next year and our end** of summer weekend ride!
